

County Commissioners Pass Library Resolution

Wave 29 Mar 1984

HEBER CITY—The Wasatch County Commission approved a bond election to be held on May 15, 1984, to determine whether the county should endebt itself by \$990 thousand for the proposed building of a county library.

The resolution calls for a special bond election to be held in Wasatch County for the purpose of voting on a proposition to issue general obligation bonds.

The money acquired from the bonds would go to the construction of, and furnishing of the new library. A Federal Grant has been filed for, which will cover the purchase of the property for the building.

Commissioner Reginald Tadd,

Chairman for the Library Board, said that the ground will be paid for by the grant. If the grant money isn't made available, then there is money left in the bond to purchase the property.

The bond election calls for the approval of \$1 million dollars though the commission has only asked for \$900,000. at present.

The new building will have a total of 16,000 square feet will have a main floor, and basement. The main floor will be for shelf and study space. The basement will be for additional office space and storage.

"It's a thing that we need," said Commissioner Tadd.

The bonds will be repaid over the next 15 years, but can be paid off earlier.

The actual construction will leave all the original pine trees, and Lake Creek will be left to add to the scenery of the building. The Lake Creek will be cemented, and a new catch will be placed where the old one existed.

Other action in commission meeting, was the passing of a special service district in the Center Creek area. The district is for flood, drainage, and road service, and is to be a separate political body than the county, with members of the district paying for services rendered.

responsibility and civic duty of every person to become involved in some form of community service. It is the club's feelings at the individuals of the community "Pay our dues," - in voluntary community service.

ed volunteer service, and also provide a means of rewarding those who go the extra mile.
